

Abstract

The alkoxyate mixtures comprise alkoxylates of the formula (I)

5

where

10 A is ethyleneoxy,

B, in each case independently, are C_{3-10} -alkyleneoxy or mixtures thereof,

15 groups A and B being present in the form of blocks in the stated sequence,

p is a number from 0 to 10,

n is a number greater than 0 to 20,

m is a number greater than 0 to 20,

20 q is a number greater than 0 to 10,

$p + n + m + q$ is at least 1,

from 70 to 99% by weight of alkoxylates A1, in which C_5H_{11} is $n-C_5H_{11}$, and

25

from 1 to 30% by weight of alkoxylates A2, in which C_5H_{11} is $C_2H_5CH(CH_3)CH_2$ and/or $CH_3CH(CH_3)CH_2CH_2$, being present in the mixture.
